The Indiana Delegation To California

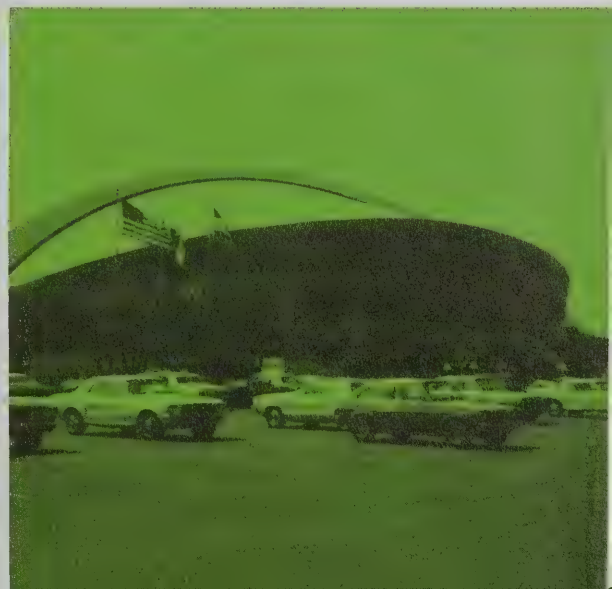

DECA

Last year was the first year for Deca on our campus. Deca stands for Distributive Education Clubs of America. It is a Competitive program geared to help the students prepare themselves for work in their particular field. Northwood hosted the state collegiate contest and our students placed highly. Ten of our students went on to the national contest in Anaheim, California. Annette Brychell placed third in overall competition and Lisa Lynn placed eighth in overall competition. This organization has really been an asset to our school.
